FROM THE EDITOR:

When I called Gary to discuss the month's technical this is the response I received:
"Gone Chopin, (has Liszt), Bach in a Minuet"!

The Technical for March will be presented by Gary Bruce

Gary didn't say what the technical would cover, only that it would be a surprise. I don't know about anyone else but the biggest surprise I have received while tuning pianos was a little snapping sound as I slid the keybed back into the piano. Anyone else ever heard that little surprise snap? That is one surprise I don't care to hear again.

How long does it normally take to repair that hammer shank?
